

## Aluminium Kitchen Splashbacks

Elegance - Bluebird

## Introducing AluSplash

Elegance - Winter Dream

AluSplash is an aluminium based kitchen splashback panel which is a sleek and modern alternative to glass, acrylic and tile splashbacks. An eco-friendly and easy to clean panel which is also fire resistant, making it safe to use behind most popular cooktops. The proprietary paint coated surface is anti-bacterial and offers good heat, steam and water resistance for a wide range of interior applications.

Explore our collections to find the ideal colour and finish for your home. Choose from calming neutral and warm tones to add understated elegance or bright and bold accents to make a modern statement. Our collections have been carefully curated to offer on trend colour options in both high gloss and matt finishes to give your home a clean and modern looking finish.

Elegance - Space Silver

Elegance - Totally Teal

- Grout free & non-porous
- Easy to clean & maintain
- Anti-bacterial
- Will not shatter or crack

- Eco-friendly
- 100% post-consumer recyclable
- Requires less energy to produce than glass splashbacks
- No emissions of greenhouse gases during production

- Fabricate with normal wood working tools
- Can be installed 3x faster than tiled splashbacks
- Can be V-grooved & folded around corners, without joins
- Easy to make cut outs for electrical sockets
- Full range of edge and corner profiles available for a clean finish

- Fire rated & heat resistant
- Suitable to be used behind most popular cooktops

- Water & Steam Resistant

# Our Collections

## Elegance

The high gloss Elegance collection subtly incorporates **metallic** flakes that reflect beautifully in the light to give a truly luxurious & modern looking finish to your interior space.

## Essenza

Inspired by the mystery and splendour of the galaxy, Essenza is a sleek matt **textured** collection. Made with luxe-living in mind, this unusually stylish range will transform your interior with its spellbinding shades and sumptuous sleek finish.

## Elements

Taking inspiration from the 4 main elements, we have specifically designed an exclusive **matt** kitchen splashback collection with a textured finish.

## Essentials

The Essentials Collection has been designed to cater for a range of kitchen styles, with **high gloss** solid colours helping to create a modern, yet stylish space.

\*This collection is only available in the UK

# The Elegance Collection

The Elegance Collection will add a sophisticated touch to any modern interior, incorporating style and functionality to give you the living space you have always dreamt of.

Each panel subtly incorporates intricate metallic flakes that reflect beautifully in the light, displaying a truly luxurious finish.

This collection has been made with style in mind, without compromising on quality or design.

AluSplash can be easily combined with sleek surfaces, modern cabinetry and appliances to create a seamlessly luxe finish to all contemporary interior spaces.

A modern alternative to glass, acrylic and tiled splashbacks; the high-gloss Elegance collection is thoroughly versatile and eco-friendly.

Our colour palette has been created to include beautiful earthy and neutral colours, as well as vibrant and bold accent hues to suit any interior colour scheme.

# The Elements Collection

This exclusive collection embodies the true essence of the four main elements found in nature: Earth, Water, Air & Fire to create Matt textured splashback panels.

Influenced by the textures of these elements, we have developed a coarse finish that forms the surface of the "Elements" collection to represent the perfectly imperfect, natural & beautiful textures found in nature.

In addition to the plain colours, we have designed marble and concrete finishes in-line with the collection. We have carefully curated the colour palette for this collection to bring each of these four elements into your interior space by selecting a range of colours that best represent the individual elements.

## Edge Profiles

We offer an exclusive range of aluminium edge finishing profiles that help to cover exposed edges, providing a sleek & clean look to your panels.

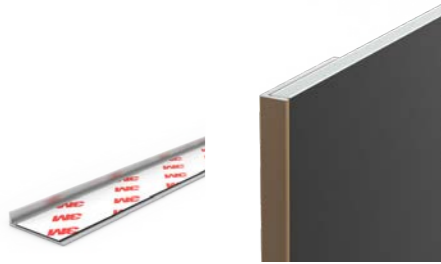

Our profiles are available in 3 finishes: Silver or Gold Anodised & coated Anthracite Dark Grey. The profiles come with pre-applied 3M double sided tape for easy installation.

### Available

- 3 finishes: Silver or Gold Anodised & coated Anthracite Dark Grey
- All profiles come with pre-applied double sided 3M tape

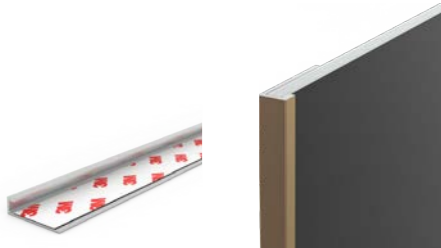

# AluSplash Profiles

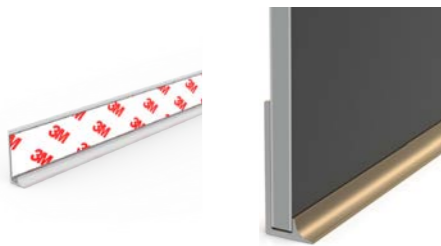

## Edge Profile

Our sleek and minimalistic L shaped profile helps to cover the exposed edges of an AluSplash backsplash to give your kitchen a perfect and professional looking finish.

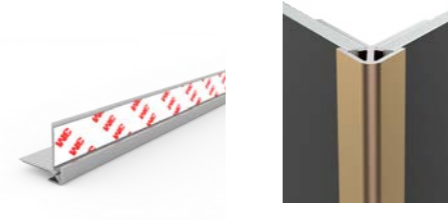

## U- Shaped Profile

This profile is great if you are unable to cut the panel perfectly straight, as you can cover exposed sawed edges with the U-shaped profile.

## Worktop Profile

This profile has been specially designed to be used between the worktop and an AluSplash backsplash. The profile is curved, making cleaning easier and keeping your kitchen worktop hygienic.

## External Corner Profile

This smart aluminum corner profile connects two AluSplash panels in an external corner installation. It can also be used when boxing around pipes or columns in combination with the internal corner profiles.

## Internal Corner Profile

The internal corner profile connects two AluSplash panels in an internal corner installation. It can also be used when boxing around pipes or columns in combination with our external corner profiles.

## Joining Strip

The joining strip is used on the back of the panel to connect two panels seamlessly together.

\* Edge Profile sizes vary in each country, please contact your distributor for the sizes available.

\*\* AluSplash profiles add an additional 1mm thickness at the back of the installed panels, so that the sealant can flow and dry correctly for a strong bond to the wall

## Care & Maintenance

AluSplash panels are vigorously tested for various aspects of functionality and durability.

However, like most wall surfaces it is imperative that the panel be cared for and maintained correctly to ensure it retains its aesthetic look, colour, gloss and surface finish.

DO's	DONT's
<ul style="list-style-type: none"> <li>✓ The panel surface must be cleaned regularly with lukewarm water and a micro fibre cloth only.</li> </ul>	<ul style="list-style-type: none"> <li>✗ Metal pot scrubbing pads or any other abrasive cleaners should not be used on the panel surface. Avoid cleaning the surface with kitchen paper rolls as they can also cause micro scratching.</li> </ul>
<ul style="list-style-type: none"> <li>✓ For added protection and to enhance the life of your AluSplash panels, we highly recommend protecting the panel surface with Vuplex for High Gloss finishes and Matte Maxx for matte finishes to prevent the panel surface from any micro-scratching or buildup of dirt and grime.</li> </ul>	<ul style="list-style-type: none"> <li>✗ Do not use acidic, caustic or abrasive cleaning detergents or materials to clean the panel surface.</li> </ul>
<ul style="list-style-type: none"> <li>✓ For stubborn stains you may use a mild detergent to gently clean the panel surface with a micro fibre cloth only.</li> </ul>	<ul style="list-style-type: none"> <li>✗ Detergents with bleach or home remedy solutions such as baking soda, or other stain removing gels, powders, liquids or materials should not be used on the panel surface.</li> </ul>

Please note, always check the batch number on the label of each package that you have purchased from a retailer. Panels from different batches may have a slight visual colour difference, within our manufacturing tolerances.

\*\* Vuplex and MatteMaxx are not manufactured by AluSplash and are available to be purchased seperately
